

Michael George Nyahende,
C/O New Tulivu Hardware,
P.O. Box 11068,
Arusha.

15th Sept 2021.

Secretary, President's Office, Public Service Recruitment Secretariat,
University of Dodoma, Utumishi Building,
P.O.Box 2320,
Dodoma

Dear Sir/Madam,

I am an Analytical Chemist/Research Scientist pursued a Bachelor of Science in Chemistry at the University of Dodoma. I have previously worked at Arusha water quality laboratory as a water quality analyst, at Sterling Surfactant Limited as a Quality Controller and at African Technical Research Centre-VHI as an Analytical Chemist and Research Scientist. My competence relies on Good Laboratory Practices (GLP), implementation of ISO 9001:2015 (Quality Management System Standard) and operation of laboratory instruments such as High Performance Liquid Chromatography (HPLC-Agilent), Gas Chromatography (GC-Shimadzu) and Spectrophotometer. I would like to express my interest to work at TANZANIA ATOMIC ENERGY COMMISSION (TAEC) as a Research Assistant. My previous work experience as a Research Scientist at African Technical Research Centre gave me a lot of expertise concerning scientific research methodologies together with a strong background of Food and Beverage Chemistry and Environmental Chemistry (where I was taught the basic knowledge concerning radiation). Kindly view my CV attached below to find more about my academic background and other qualifications. I am looking forward to become part of TAEC team and grow together as Research Centre. For an interview or any other required information I can be reached via +255784392668, michaelnyahende8@gmail.com. Hopefully I would be considered for one among the specified positions above.

Sincerely,

Michael George Nyahende.

P.S I also attached letters that I received from TAEC when I sent my job application to the institution earlier January 2021, kindly have a look at them.
